

Kids Have FUN Learning to Code

Canyon Town Center • 8788 W Boynton Beach Blvd #110 • Boynton Beach, FL 33472 • 561-336-0540

WHY TEACH KIDS TO CODE?

Kids in the US are falling behind the rest of the world in STEM-related subjects.

Schools don't have time or resources to meet demand for quality coding education.

Existing after school programs are boring & parents have to drag kids there.

Existing online materials are unorganized or too hard for kids to understand by themselves.

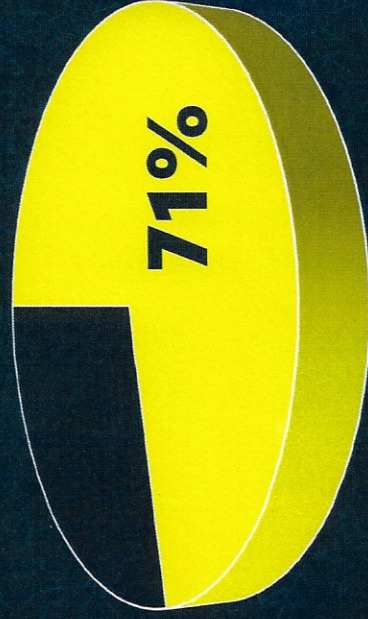

Kids like to play and have fun, while parents want to see their child achieve real results.

We want our kids to be social, but screen time at home is a solitary exercise.

THE COMPUTER SCIENCE PROBLEM

71% of ALL new jobs in STEM
are in computer science

8% of STEM graduates
are in computer science

BUT SCHOOLS AREN'T TEACHING IT TO KIDS

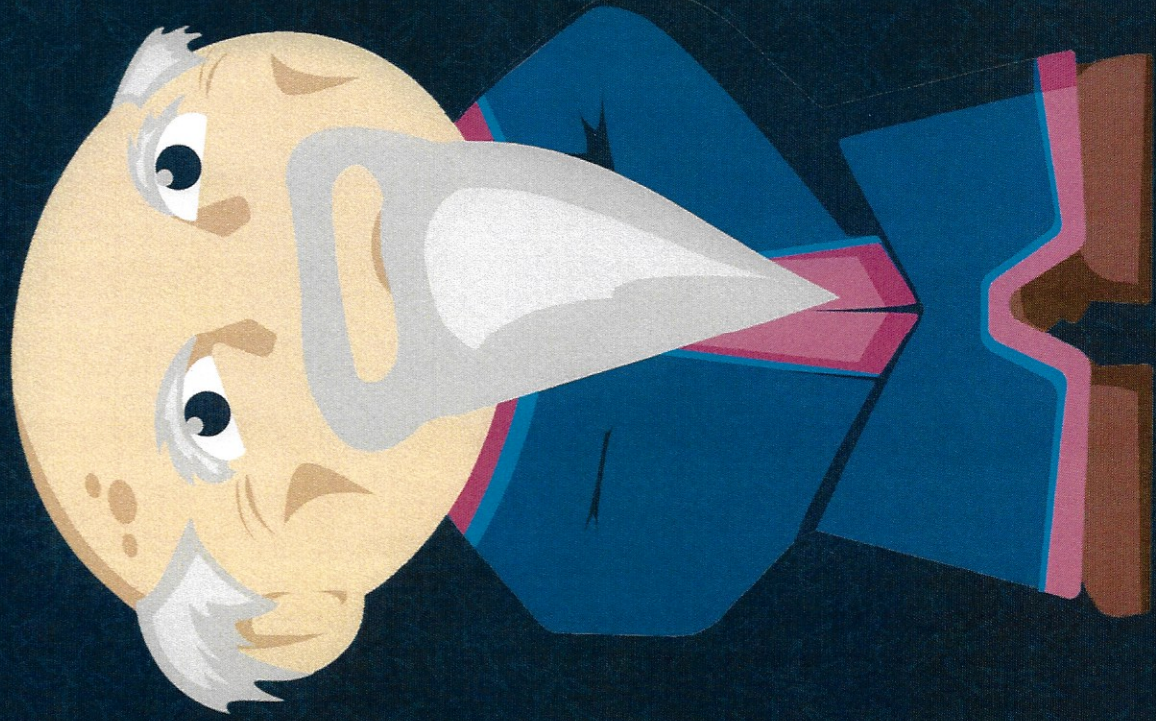

90% of parents want their child to study
computer science

40% of schools teach
computer science

THE CODE NINJAS SOLUTION

- Provide a place where gaming is celebrated as **kids gain confidence** in coding, math, logic, & problem solving.
- Create a **high-quality, continuous curriculum** that lets kids grow and learn, no matter where they start.
- Build their favorite games into a part of the curriculum: **Scratch®**, **Minecraft®** and **Roblox®**.
- Offer an easy-to-follow system, with support & encouragement from a **Code Sensei®** as well as fellow students.
- Enable kids to learn by building video games. They aren't aware they're learning – **they're just having fun.**
- Let kids **learn in a social setting with like-minded peers**, making amazing progress in just a few visits per week.

CURRICULUM ROADMAP

— BEGINNER - 1YR ——— INTERMEDIATE - 2YR ——— ADVANCED - 1YR EACH

★ DROP-IN AT YOUR CONVENIENCE DURING NORMAL STUDENT HOURS.

★ ALL KIDS START AT WHITE BELT AND PROGRESS AT THEIR OWN PACE.

★ ROBOTICS PREPARE YOUR CHILD FOR THE FUTURE OF AUTOMATION.

★ GET IMMEDIATE HELP FROM OUR CODE SENSEIS® OR FELLOW NINJAS.

★ PARENTS SEE RESULTS AS THE KIDS MOVE THROUGH THE CURRICULUM

★ STEM GAMES TEACH CRITICAL THINKING, PROBLEM-SOLVING & LOGIC.

★ PROGRAMMING LANGUAGES INCLUDE SCRATCH, JAVASCRIPT, UNITY3D & C#.

★ BLACK BELT NINJAS PUBLISH APPS IN THE APPLE & ANDROID STORES.

PATH OF ENLIGHTENMENT

1

WHITE BELT

Kids learn to write game using Scratch®

Concepts Learned: variables, user interfaces, Boolean, control structures

2

YELLOW BELT

Introduction to the Game Development Platform.

Concepts Learned: global functions, game object functions, JavaScript syntax

3

ORANGE BELT

Control Statements in the Game Development Platform.

Concepts Learned: while, foreach, loops, if/then, switch, do/while, and more.

4

GREEN BELT

Custom Game Building using the Game Development Platform

Concepts Learned: Problem/solution mindset, code cleanliness, collaboration, mapping, level design, assets

5

BLUE BELT

Beginning Game Development using Roblox®

Concepts Learned: Roblox® User Interface, Local vs Global coordinates, Camera/Scene scope, Asset and Script Management

6

PURPLE BELT

Advanced Game Development using Roblox®

Concepts Learned: Physics Engines, Custom Animations, Code Efficiencies (Big O), Sound, Advanced Level Design Concepts

7

BROWN BELT

Beginning Development using Unity3D®

Concepts Learned: Dot Product, Matrix Manipulation, Meshes and Assets, Ray Casting

8

RED BELT

Advanced 3D Development using Unity3D®

Concepts Learned: Network Play, Shaders, Efficient Game Loop Development, 3D Level Design Concepts

9

BLACK BELT

Fully Custom Developed Game From Concept to Delivery

Concepts Learned: Team Collaboration, App Store Distribution, Business of Gaming, Game Marketing

GAME BUILDERS' CLUB

Build your very own video games from the ground up, using your artwork (or ours) combined with the power of coding!

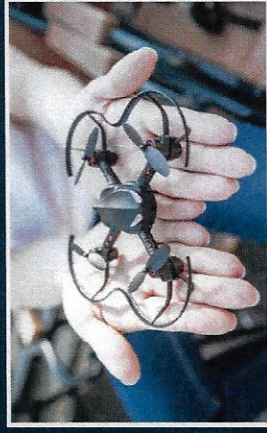

SNAP IT TOGETHER

Discover the vast world of electronics and learn how electricity interacts with various elements through Ninja Circuits, our very own snap circuits kit!

ROBLOX CREATE

Spark your imagination and explore game concepts through Roblox, no matter what your level – from beginner to expert! (Requires a Roblox Classic Tier account.)

CODE DRONES

Program your own drone and conquer the skies like a coding pro!

MINECRAFT CREATE

Dream up & design your own Minecraft world! Zombies, purple trees, & flying pigs - oh my! (Requires a Minecraft account.)

BEGINNING JAVASCRIPT

Master the basics of JavaScript game development in just one week - a real coding challenge for the true Code Ninja!

BUILD & BROWSE

Create your own website and develop applications entirely in code!

ROBOPRO BEGINNERS

Sharpen your mind and have fun at the same time with engaging STEM games and activities.

STEM ACTIVITIES

Learn and build robotics through a series of fun activities with our Ninja Toolbox! (May require Toolbox purchase.)

SUMMER CAMP 2019

 **MORNING**
9AM-12:30PM

 **AFTERNOON**
1PM-4:30PM

Extended hours 8:30AM-5PM is an additional \$75 per week.
Ninja, siblings & multi week discounts available!
