BUILDING AND COMMUNITY DEVELOPMENT DEPARTMENT / BUILDING AND PERMITTING

BUILDING AND PERMITTING FEES

Building permit fees consist of a base building permit application fee of \$120, plus a permit fee of 2.5% of the total construction value, plus any plan review fees, plus all associated taxes, surcharges and service fees (unless otherwise noted). Additionally, customers will be responsible for the processing fees associated with credit card* payments for building and permitting fees.

All building permits with a total construction value exceeding \$200,000 will require a non-refundable deposit in accordance with the dry run/courtesy plan review table per trade. This deposit will be credited to the purchase cost of the permit (excludes plans processed as dry run and courtesy reviews).
